

An ISO 9001:2015 Certified Company

Quality without compromise

MANUFACTURERS OF  
METAL TURNED COMPONENTS

## ABOUT US

With over two decades of unwavering commitment to excellence, we have consistently elevated our systems and technology to deliver the highest quality products at competitive rates. Our extensive product range caters to diverse industrial sectors, including Electrical & Electronics, Automobiles, Oil & Gas, Telecom, Construction, and various industrial applications. Embedded in our corporate ethos is a robust sustainability strategy that serves as our guiding compass, steering us towards growth while effectively managing our businesses to deliver valued products to our esteemed customers. It emphasizes the importance of partnership with our customer, transparency and value creation which form the basis of the culture we foster.

Our products are fabricated using the finest quality of raw material acquired from our trusted vendors. We have expertise and ability to meet the market demand with quality standards of international buyer's located globally. We have comprehensive range of metal products. We are also manufacturing customise product as per customer requirements, designs and specifications. Our Prime Focus is the satisfaction of our honorable customers and our Prime Motto is to meet customers' requirements effectively and creating values for all, our customers and our company and towards society.

## QUALITY

Superior quality is the primary concern at Shlok Impex. We strictly adhere to stringent quality management systems in order to facilitate an error free production from every stage. Our entire manufacturing process is monitored by a team of well professionals having years of experience behind them. A team of trained supervisors and quality control inspectors ensures that the quality is maintained at all the stages of production.

Our target is to provide zero defects products to client which is remarkable in industry. To meet the global demand we take care at every stage right from raw material purchase to finished goods. To achieve the maximum standard our quality control team continuously monitors the products and user requirement right from the production stage up to the final dispatch. Every employee of the company is committed to the pursuit of excellence with continuous improvement of the quality management system.

## QUALITY CONTROL

Our quality control department ensures that each product is manufactured with controlled process according to given task and quality of parts are maintained throughout entire process. For ensuring products are free from all kind of faults, we test our products with rigorous controls along with supplementary test like process control, assembly line control, quality control, material control, dimensional control, leakage and pressure control.

## Precision Engineering Components

With our spacious experience and knowledge, we are engaged in offering a wide range of Precision Engineering Components. Our offered range is available in various sizes, shapes & dimensions as per clients requirements and can be customized in various options.

## Hollow & Solid Pins

Brass Hollow & Solid Pins are used as an electrical plug socket by our clients. Widely acknowledged for its optimum quality & durability, these pins are manufactured using utmost grade raw material with the edge of sophisticated techniques by our experienced personnel.

## Sheet Metal Components

Sheet Metal / Stamping Parts are used in varieties of applications like riveting, Fitting, Supports, Locking, Fastening & for various uses in electromechanical & Automobile Industries. It comprises a lot of types like Washers, Lugs, Tags, Gaskets, Links, Banana Plugs, Terminals, Tapping Clips, Hinges etc. Apart from Plain Washers, all other varieties are exclusively developed as per custom designs & demands. Sheet Metal Parts generally made from Brass, Copper & Steel which are the universally used in most of the applications.

## Brass Sanitary Fittings

The Brass Sanitary Fittings manufactured by us are made from quality brass materials which ensure durability and quality. Our wide gamut of Brass Sanitary Spare Parts include Brass Tee, Brass Elbow, Brass Union, Brass Socket, Brass Coupling, Brass Bush, Brass Plug, Brass Stop Plug, Brass Adapters, Brass Couplers, Male/Female Pipe Fittings, Hexagonal Reducing Nipple, Stop Plug, Bush, Male/Female Adaptors, Female Connectors and Hose Joiner.

## Brass & SS Hardware Fittings

Our extensive experience as manufacturers of hardware fittings like door hardware fittings, window hardware fittings, wrought iron hardware and many more coupled with our export capabilities that have been build over the years, we have established ourselves as a major player in the international market. Our company observes high quality production techniques along with a keen aesthetic sense of design, which ensures complete customer satisfaction.

## Brass & SS Fasteners

We provide high quality Fasteners with variety of types. Generally, Fasteners are hardware components that mechanically joins two or more elements together. Fasteners are easily removable without any damage to the joining components. They are made from brass, mild steel, stainless steel and other material composition.

## Brass & SS Terminals

We have wide range of Brass & SS Terminals which are available in various types, size, shapes, material composition and other configuration based on custom requirements and specification.

## Brass / SS / Copper Valves

We are widely recognized as one of the premier manufacturers and suppliers of valve fittings in the India (O.E.M.'s) seeking the best quality, service and dependable delivery at very competitive prices. We manufacture a much diversified range of brass valves and fittings made to our customer's proprietary designs.

## Brass PIM Inserts

The wide range of Brass Inserts include threaded molding inserts, ultrasonic molding inserts, knurled molding inserts, molding inserts for plastic, wood molding inserts and more. The range of standard and high quality molding inserts designed to molded into the plastic, wood or any molded components.

## Brass Extrusion Rods & Coils

We have wide range of Brass & SS Terminals which are available in various types, size, shapes, material composition and other configuration based on custom requirements and specification.

## Brass Turned Components

We are engaged in offering a wide range of Brass Turned Components to our clients at a reasonable cost. Our turned components are made using quality raw material such as high and fine grade brass to assure quality and reliability. We manufacture all types of Brass turned components depending upon client's requirement for application in any industry.

## Plastic & Metal Balls And Rubber O-Rings

We are instrumental in offering our clients a high quality range of Plastic & Metals Balls. The offered balls are manufactured with the help of supreme grade raw material and technically advanced machines under the guidance of skilled professionals. They are fabricated at our advanced infrastructure facility in accordance with industrial quality standards.

## Forging Components

We are specialized in Manufacturing of Brass Forging Parts. We can Manufacture any type of Brass Forging Components, Brass Forging Parts, Brass Forging Fittings, Brass Forged and Machined Parts, Brass and Gunmetal Die Casting Components for various industries including Water Valve and Pipe Fittings, Plumbing and Sanitary Fittings, Agricultural Equipment, Automotive Parts, LPG and CNG Valve Fittings, Electrical and Engineering Assembly.

## Cable Glands

Cable Glands are the most reliable and durable components for securing and protecting the cables and required elements in hazardous or harsh environments. Cable Glands are made of various metals including Brass, Stainless Steel, Plastic, Aluminium, Nickel Plated Brass and more. The function of Cable Glands is to protect the Conductors and Cables from mechanical damage and protect assembly against ingress of dust and moisture.

## Infrastructure

Our manufacturing unit is equipped with latest machines and technology to produce zero-defect and high performance metal components. The sophisticated production facilities enable us to execute orders of various sizes and specifications.
